* Radioactive liquid waste is prohibited from being disposed of into laboratory sinks. However, the washwater from the rinsing of your glassware, etc. may be put into the laboratory sink if it is **less than or equal to 0.1 uCi**. However, this must be recorded on an "Incidental Sink Disposal Log" posted by the sink. If activity is greater than 0.1 uCi, collect 1st rinsate into a liquid waste container.

Liquid washwater being discharged into the sink must be soluble or easily dispersible in water.
